Jasper Hill Farm

Andy and Matteo Kehler built this unique creamery with their own hands. The brothers sent their first cheeses to market in 2003 and they haven't looked back. They go to pretty extreme lengths to produce their award-winning cheeses. "You can't make a good cheese without good milk. You can't make good milk without healthy animals. You can't have healthy animals without a healthy landscape and good feed." In addition to their own cheese, they also collaborate with other local producers aging cheeses at their innovative Cellars at Jasper Hill until each reaches perfect ripeness.
